

PD6 Series

DMR handheld radios

The PD6 Series from Hytera offers a sleek, innovative handset for professional radio users. With a lightweight, crafted metal design, supporting both digital and analogue technology, the PD6 Series is a popular feature rich device.

Radios

PD6 Series

PD605 / PD605G
PD665 / PD665G
PD685 / PD685G
DMR handheld radios

Highlights

Refined and lightweight

The PD6 series from Hytera are only 27mm deep, making them particularly slim. The chassis is encased in a high-quality aluminum metal frame and with a weight of only 290g (PD605) or 310g (PD655/PD685), these handsets are easy to carry for long operations.

Longer battery life

With the 1500 mAh standard lithium-ion battery, the PD6 series handsets can achieve an operating time in digital mode of at least 16 hours. With the optionally available 2000-mAh battery, this could be up to 20 hours.

The PD6 series can be operated in TDMA Direct Mode and Pseudo-Trunk mode. This assignment of the available bandwidth with double the number of channels leads to a significant easing of the increasing shortage of frequencies in the operation of DMR mobile radio systems compared to analogue mobile radio systems.

Expanded frequency range

The frequency range in UHF is offered from 400 MHz to 527 MHz.

Support of analogue and digital mobile radio

The PD6 series was developed in compliance with the ETSI DMR standard. Digital Mobile Radio (DMR). The handheld radios support the conventional DMR operation and can also be used in analogue mode. This makes the terminals of the PD6 series the ideal companion for the migration to digital mobile radio.

System solution for larger networks

In addition to conventional DMR (DMR Tier II) and analogue modes, all PD6 radios support operation in DMR trunked (Tier III), XPT digital trunking and MPT 1327.

Additional Functions

- Every radio of the PD6 series is also available with GPS (denoted by the model number followed by a 'G'). Variants with GPS support GIS applications such as AVL, telemetry and also include a Man Down function
- Encryption with the encryption algorithm ARC4 (40 bit) in accordance with DMRA or with optional algorithms AES128 and AES256 (128 and 256 bit)
- Expansion interface for applications
- Priority interrupt
- Leasing function
- Versatile voice calls: Individual call, group call, broadcast call, emergency call
- Bluetooth accessories available with optional adapter
- Roaming

Small and lightweight, robust chassis with metal frame

Multifaceted accessories available for every operation

Dust and water-proof radios in accordance with IP67

Correspond to US Military Standard MIL-STD-810 C/D/E/F/G

In the box

Lithium-ion battery (1500 mAh) BL1504	Standard antenna (UHF or VHF)	Rapid-rate charger CH10A07
Hand strap RO03	Belt Clip BC08 (PD605) BC22 (PD665 and PD685)	Switching power adapter for charger PS1044

Optional accessories

Wireless headset ESW01	Loudspeaker microphone SM26N1	Earphone with C-clip EHN20
Lithium-ion battery (2000 mAh) BL2010	6-unit charger MCA08	Carrying case (nylon) NCN011

Technical Data

General data	
Frequency range	VHF: 136 – 174 MHz UHF: 400 – 527 MHz
Supported operating modes	<ul style="list-style-type: none"> DMR Tier II in acc. with ETSI TS 102 361-1/2/3 Simulcast XPT Digital Trunking Analogue
Channel capacity	1024
Zone capacity	3 (PD605), 64 (PD665 / PD685)
Channel spacing	12.5 / 20 / 25 kHz (analogue) 12.5 kHz (digital)
Operating voltage	7.4V (nominal)
Standard battery	1500mAh (lithium-ion battery)
Battery life (5-5-90 duty cycle, high transmitting power, standard battery)	approx. 11 hours (analogue) approx. 16 hours (digital) with 1500mAh approx. 20 hours (digital) with 2000mAh
Frequency stability	± 0.5 ppm
Antenna impedance	50 Ω
Dimensions (H × B × T) (without antenna)	119 × 54 × 27 mm (PD605) 122 × 54 × 27 mm (PD665 / PD685)
Weight (with antenna and standard battery)	approx. 290 g (PD605) approx. 310 g (PD665 / PD685)
Programmable keys	1 (PD605) 6 (PD665) 3 (PD685)
LCD display (PD665 / PD685)	160 × 128 pixels, 65,536 colors, 1.8 inch, 4 lines

Ambient data	
Operating temperature range	- 30 °C to + 60 °C
Storage temperature range	- 40 °C to + 85 °C
ESD	IEC 61000-4-2 (Level 4), ± 8 kV (contact), ± 15 kV (air)
Dust and water protection	IP67
Shock and vibration resistance	MIL-STD-810 C/D/E/F/G
Relative humidity	MIL-STD-810 C/D/E/F/G

GPS	
Time to first position recognition (TTFF) cold start	< 1 minute
Time to first position recognition (TTFF) warm start	< 10 seconds
Horizontal accuracy	< 10 meter
